SUMMARY

Research software engineer who builds data systems for laboratory instruments.

PROFESSIONAL EXPERIENCE

Example University Research Computing

Research Software Engineer | September 2019 to Present | Springfield

- Led change management for 40 laboratory sites moving to the shared instrument archive.
- Certified 12 acquisition pipelines against the archive validation suite.

Acme Instruments

Applications Scientist | June 2015 to August 2019 | Riverside

- Wrote calibration software used on 300 spectrometers in the field.

EDUCATION

PhD, Computational Biology, Example University, 2010 to 2015

GRANTS AND FUNDING

- Instrument Data Commons, Example Science Foundation, Co-investigator, 2021.
